

Part # IC-2U-19RM-HARRIS-10

- 19" Industrial Rack Mount PC 2U Case w/ 300W PSU (90 to 264 VAC).
- Dims 19" x 17" x 3.5"
- Gigabyte mother board
- Onboard Audio, Video, Gigabit LAN
- 1 x Serial Port
- Intel I3 or equivalent 3.7GHz CPU
- 8GB RAM
- 500 GB 72k RPM SATA2 hard drive
- 24x DVDRW SATA
- 2U Riser card with 2 x PCI
- Windows 10 64bit
- Heavy Duty 20" Slide Rails
- Octopus interface cables

System equipped with Smart Universal PCI Multiport Serial Board. CP-118U have 8 RS-232/422/485 serial ports support data rates of up to 921.6 Kbps, and provides full modem control signals, ensuring compatibility with a wide range of serial peripherals. In addition, CP-118U works with both 3.3V and 5V PCI buses and 8 port RS232 Octopus cable.

System equipped with the PCI-1751 is a 48-bit digital I/O card based on a PCI bus. Its 48 bits are divided into six 8-bit I/O ports and users can configure each port as input or output via software. The PCI-1751 also provides one event counter and two 16-bit timers, which can be cascaded to become a 32-bit timer.
